PORTFOLIO
zwekhantlwin.fi

SKILLS

Networking
TCP / IP, VLANs, subnetting, routing, DNS, VPN, firewalls (CCNA-level)

Systems & OS
Linux (Ubuntu Server), Windows Server, VMware, AWS EC2

Hands-On & Hardware
PC build & repair, peripheral setup, cabling, on-site troubleshooting

Scripting & Tools
Bash, PowerShell, Git / GitHub, AWS CLI

Web & Databases
HTML5, CSS3, PHP, WordPress, MySQL / MariaDB, LAMP stack

CERTIFICATIONS

AWS Academy Cloud Foundations
2025

Cisco CCNA
Coursework completed

LANGUAGES

English	Fluent
Finnish	Basic (A2.1)
Burmese	Native

INTERESTS

Networking & hardware tinkering · Open-source software · Football (amateur, Helsinki)

Zwe Khant Lwin

IT & SYSTEMS · NETWORKING · LINUX · HANDS-ON SUPPORT

PROFILE

Recent Business Information Technology graduate from Haaga-Helia (2026) with a practical, hands-on approach to IT. Comfortable with networking (CCNA-level coursework), Linux server administration, PC and hardware setup, and cabling, as well as the software side — scripting, virtualization, and cloud platforms. Recent on-the-job experience troubleshooting live production systems at SpeedZone (Zone.eu), working bilingually in English and Finnish. Looking to grow into a real field-and-office role around modern automation systems, and happy to learn by doing.

EXPERIENCE

Web Development Trainee Feb 2026 – Apr 2026
SpeedZone.fi (Zone.eu)
Helsinki, Finland

- Worked on a managed LAMP-stack Linux hosting platform serving production sites for Finnish small-business customers.
- Diagnosed and resolved live system issues — DNS configuration, domain transfers, email tooling, plugin and platform faults — escalating deeper cases to senior engineers.
- Carried out site migrations end to end, keeping customer services online through the transition.
- Communicated technical solutions to customers and colleagues in English and Finnish in a fast-paced production environment.
- Selected to deliver a commissioned bachelor’s thesis on WordPress security for SpeedZone after the traineeship.

Seasonal Mail Sorter 2023 – 2025
Posti
Helsinki, Finland

- Worked accurately and reliably in a high-volume operations environment, consistently meeting daily quotas across multiple seasonal returns.

SELECTED PROJECTS

Moodle LMS on AWS — Networking & Systems Project 2025
Project Lead · Haaga-Helia

- Designed and deployed a multi-tier Linux web application on AWS, including a secure VPC with public / private subnets, NAT gateways and IAM-based access control.
- Configured Ubuntu servers using Bash and PowerShell automation, and set up CloudWatch monitoring for system health and resource use.
- Authored 10+ Infrastructure-as-Code templates, cutting environment provisioning time by roughly 80%.

Linux Systems Analysis & Administration 2025
Haaga-Helia coursework

- Worked hands-on with Ubuntu Server VMs — kernel and distribution inspection, package management, user / permissions configuration and system diagnostics.
- Studied real-world Linux deployments across servers, networking equipment and embedded systems.

EDUCATION

BBA, Business Information Technology 2023 – 2026
Haaga-Helia University of Applied Sciences, Helsinki

- Relevant coursework: Networking, Linux Systems Administration, Public Cloud Architecture, Databases, Web Development.
- Bachelor’s thesis (commissioned by SpeedZone.fi): *WordPress Security — Comparison of Security Plugins and Implementation Guide.*
